Determine the Weight and Size

PACKAGE

For All Domestic and International Shipments

The Determine the Weight and Size information on this page and the next page are for package shipments only. For information on how to determine the weight and size for UPS Worldwide Express Freight® Midday and UPS Worldwide Express Freight® shipments, refer to page 7. For information on how to determine the weight and size for UPS® Simple Rate shipments, refer to page 48.

Shipping rates are based on package weight and size (explained below and on the following page) and origin-to-destination distance (refer to pages 12-13 for Alaska Domestic, pages 30-31 for Hawaii Domestic, page 52 for Export and page 59 for Import).

Billable weight is the weight used to calculate the rate. For domestic and international services, the billable weight will be the greater of the dimensional weight compared to the actual weight.

How to determine billable weight.

1. Determine actual weight.

Actual weight is the package weight rounded up to the next whole pound.

Use a scale to determine the weight of the package. Round any fraction of a pound to the next whole pound for UPS Express® Envelopes (letters) over eight ounces and all other packages.

2. Determine dimensional weight.

Dimensional weight reflects package density, which is the amount of space a package occupies in relation to its actual weight. Dimensional weight may apply to all UPS domestic and international package services.

Determine the package dimensions in inches. For each dimension, measure at the longest point, rounding each measurement to the nearest whole number (for example, 1.00 to 1.49 will be considered 1, and 1.50 to 1.99 will be considered 2). The minimum measurement for each dimension is 1 inch.

Multiply the package length (longest side of the package) by the width by the height. The result is the cubic size in inches.

Divide the cubic size in inches by 139 to determine the dimensional weight in pounds. Increase any fraction to the next whole pound.

3. Determine billable weight.

Compare the package's actual weight to its dimensional weight. The greater of the two is the billable weight and should be used to calculate the rate.

For multiple-package shipments eligible for shipment pricing, total the billable weight of all packages in the shipment.

Notes:

- Shipment pricing is not available for a service unless specifically noted.
- For information on how to determine the rate applicable to UPS® Simple Rate shipments, see pages 48-49 and visit [ups.com/simplerate](https://www.ups.com/simplerate).

Dimensional Weight Calculation

$$\left[\begin{array}{l} \text{Dimensional Weight} \\ \text{in Pounds} \end{array} \right] = \frac{L \times W \times H}{139}$$

L = Length in inches

W = Width in inches

H = Height in inches

Determine the Weight and Size

PACKAGE

For All Domestic and International Shipments (continued)

Additional Information on Determining Weight and Size

- **Letter rates** apply for domestic and international documents, correspondence and electronic media shipments that do not exceed eight ounces sent in a UPS Express® Envelope. Domestic Letters greater than eight ounces will be billed by weight (rounded up to the next whole pound). Export Letters greater than eight ounces and up to two pounds will be billed at UPS Express® Pak rates. Export Letters greater than two pounds and import Letters greater than eight ounces will be billed by weight (rounded up to the next whole pound).
- **UPS Express Pak rates** apply for export shipments that weigh two pounds or less, do not exceed \$100.00 in customs value and UPS Express Pak is selected at the time of shipping.

Notes:

- Size limits indicated by a box manufacturer may not reflect exterior dimensions of a package, including where a package may have bulges or otherwise may not be uniform across each plane, and should not be used as a substitute for actual length, width and height measurements in determining dimensional weight.
- Improper packaging may result in the alteration of a package's dimensions during transit which can affect the package's dimensional weight and result in a shipping charge correction.

- **Irregularly Shaped Packages:** If the package has a bulge or is irregularly shaped, measure the length, width and height of the package at its extreme points, which may include the bulge or irregular aspects of the package.

Treat the irregularly shaped package as if it were in a regular rectangular box. Measure the length, width and height of the package from its extreme points.

– Items Shipped in Bags:

Shape – When multiple items are shipped in a flexible container (e.g., burlap or plastic bag), the package measurements will be determined when the exterior is at rest. As this shape will differ from placement to placement, cubic size or package measurements will be made at the sole discretion of UPS.

Tails – A tail on an item shipped in a bag should be measured for the amount of space it takes up in a reasonably compressed fashion. Any tail that is created by placing an item in a bag must be compressed and taped to the body of the item.

- Packages that exceed UPS weight and size limits are not accepted for transportation. If found in the UPS system, they are subject to an Over Maximum Limits charge. UPS reserves the right in its sole and unlimited discretion to return such packages to the shipper at the shipper's expense. Refer to page [101](#) for more information. For shipments over 150 pounds other than UPS Worldwide Express Freight® Services, refer to page [50](#) for Air Freight.

- A **Large Package Surcharge** may apply to domestic and international shipments.

For domestic shipments, a package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches or its length exceeds 96 inches.

For international shipments, a package is considered a "Large Package" when its length (longest side of the package) plus girth [(2 x width) + (2 x height)] combined exceeds 130 inches.

Large Packages are subject to a minimum billable weight of 90 pounds. An Additional Handling charge will not be assessed when a Large Package Surcharge is applied.

- Shippers are responsible for providing accurate and complete shipment information on the shipping document or in the automated processing system used, including service selected, number, weight and dimensions of packages. UPS reserves the right to audit any package and/or invoice to verify service selection, package dimensions or weight and applicability of any charges. As part of that audit, UPS may weigh and measure any package tendered to UPS using any method UPS deems appropriate including, but not limited to, multi-dimensional measuring devices. If any aspect of the shipment information provided by the shipper is incomplete or incorrect as determined by UPS in its sole and unlimited discretion, UPS may in its sole and unlimited discretion adjust charges at any time.

Follow the instructions on this page and the previous page to determine the billable weight for your package shipments. Refer to page [7](#) for UPS Worldwide Express Freight Services.

Determine the Weight and Size

UPS WORLDWIDE EXPRESS FREIGHT® MIDDAY and UPS WORLDWIDE EXPRESS FREIGHT®

For International Palletized Shipments

Shipping rates are based on the shipment weight, including the weight of the pallet and size and origin-to-destination distance (refer to page [51](#) for export and import).

Billable weight is the weight used to calculate the rate. The billable weight will be the greater of the dimensional weight as compared to the actual weight.

How to determine billable weight.

1. Determine actual weight.

Actual weight is the weight of the items on the pallet and the weight of the pallet, rounded up to the next whole pound.

Use a scale to determine the weight. Round any fraction of a pound to the next whole pound.

2. Determine dimensional weight.

Dimensional weight reflects pallet density, which is the amount of space a pallet occupies in relation to its actual weight. Dimensional weight may apply to all UPS Worldwide Express Freight Midday or UPS Worldwide Express Freight shipments.

Determine the pallet dimensions in inches. For each dimension, measure at the longest point, rounding each measurement to the nearest whole number (for example, 1.00 to 1.49 will be considered 1, and 1.50 to 1.99 will be considered 2). The minimum measurement for each dimension is 1 inch.

Multiply the pallet length by the width and by the height. The result is the cubic size in inches.

For export and import shipments, divide the cubic size by 139 when measured in inches to determine the dimensional weight. Increase any fraction to the next whole pound.

3. Determine billable weight.

Compare the pallet's actual weight to its dimensional weight. The greater of the two is the billable weight and should be used to calculate the rate.

Additional Information on Determining Size and Weight.

– Pallets that exceed maximum size or weight restrictions (which vary by origin and destination) as set forth at [ups.com/wwefmaxdimweight](https://www.ups.com/wwefmaxdimweight) require prior approval, and are subject to an Oversize Pallet Handling Surcharge. Refer to page [101](#) for more information.

U.S. Export and Import

$$\boxed{\text{Dimensional Weight in Pounds}} = \frac{L \times W \times H}{139}$$

L = Length in inches

W = Width in inches

H = Height in inches

Billable Weight Calculation

Customer has a shipment with three (3) pallets weighing 600 pounds, 800 pounds and 1,000 pounds. All pallets are the same size with the following dimensions: 48 in. x 40 in. x 60 in.

1. Determine actual weight.

Actual Weight = 600 lbs. + 800 lbs. + 1,000 lbs. = 2,400 lbs.

2. Determine dimensional weight.

Pallet Dimensional Weight = $\frac{48 \text{ in.} \times 40 \text{ in.} \times 60 \text{ in.}}{139}$ = 829 lbs.

Shipment Dimensional Weight = 829 lbs. + 829 lbs. + 1,000 lbs. = 2,658 lbs.

3. Determine billable weight.

Shipment Billable Weight = 2,658 lbs.

AIR FREIGHT

How to Determine Billable Weight*

Compare the freight shipment's minimum billable weight, actual weight and dimensional weight. The greatest of the three is the billable weight and should be used to calculate the rate.

1. Determine minimum billable shipment weight.*

– Minimum billable weight for loose items is the greater of 151 pounds or the number of pieces multiplied by 20 pounds.

| Service | Minimum Weight per Piece | Minimum Weight per Shipment |
|-------------------------------|--------------------------|-----------------------------|
| UPS Next Day Air® Freight NGS | 20 Pounds | 151 Pounds |
| UPS 2nd Day Air® Freight NGS | | |

*The minimum billable shipment weight applies to all Air Freight services within and between the U.S., Canada and Puerto Rico. For UPS Air Freight Direct® and UPS Air Freight Consolidated® services, a minimum shipment dollar amount is applied. Refer to the "UPS Air Freight Terms and Conditions of Contract for UPS Air Freight Services in the United States, Canada and International" at [ups.com/freighttermsofservice](https://www.ups.com/freighttermsofservice) for more information or call 1-800-443-6379.

2. Determine actual weight and round up any fraction of a pound or kilogram to the next whole pound or kilogram.

3. Determine dimensional weight.

For each dimension, measure at the longest point, rounding each measurement to the nearest whole number. The minimum measurement for each dimension is 1 inch. Multiply the shipment length by the width by the height. The result is the cubic size. Divide the cubic size by the dimensional weight factor located in the matrix below to determine the dimensional weight.

| Service | Origin | Destination | Dimensional Weight Factor (Inches/Pounds) | Dimensional Weight Factor (Centimeters/Kilograms) |
|--|--------------------|--------------------|---|---|
| UPS® Air Freight Premium Direct | All | All | 139 | 5,000 |
| UPS Air Freight Direct UPS Air Freight Consolidated | All | All | 166 | 6,000 |
| UPS Next Day Air® Freight UPS Next Day Air Freight NGS UPS 2nd Day Air® Freight UPS 2nd Day Air Freight NGS UPS 3 Day Freight® UPS 3 Day Freight® NGS | PR, CA and U.S. | PR, CA and U.S. | 139 | 5,000 |
| UPS Worldwide Expedited® Air Freight | U.S. | MX | 139 | 5,000 |
| | MX | U.S. | | |
| UPS Worldwide Expedited® Ground Freight | U.S. | MX | | |
| | MX | U.S. | | |

To convert metric measurements into pounds, multiply the result by 2.20462. To convert imperial measurements into kilograms, multiply the result by 0.453592. Increase any fraction to the next whole pound or kilogram.

**The minimum billable weight of 20 pounds per loose piece applies to Air Freight within and between the U.S., Canada and Puerto Rico only. If your non-palletized shipment does not meet the minimum weight of 20 pounds per piece, consider palletizing. Palletizing will ensure your shipment does not fall below the per-piece minimum billable charge.

***Pallet billable weight is equal to the shipment weight (315 pounds) plus the weight of a pallet (approximately 40 pounds).

Note: Each pallet with its secured contents is entered as one piece.

Domestic, Export and Import

Determine the Rate

All UPS rates are per package for domestic services and per shipment for international services, unless otherwise noted. The following information applies to the rate charts that appear on pages 14-47 for domestic, pages 63-81 for export and import. (Refer to pages 48-49 to calculate UPS® Simple Rate shipments.)

Packages processed for shipment or tendered to UPS on Sundays, holidays or other non-operating days may in UPS's discretion be billed at the UPS rates in effect on the next UPS operating day.

- Visit [ups.com](https://www.ups.com) for guarantee details, service availability, delivery time commitments or to request a pickup.
- Dimensional weight may apply. Refer to pages 5-6 for more information.

Domestic

- For each UPS Next Day Air® Early package with a weight of more than 150 pounds, multiply the weight by the price per pound and add \$30.00. For all other UPS domestic services with a weight of more than 150 pounds, multiply the weight by the price per pound.

- The Letter rate applies only to documents, correspondence and electronic media shipments that do not exceed eight ounces sent in a UPS Express® Envelope. UPS Express Envelopes exceeding eight ounces are subject to the rate corresponding to the weight of the UPS Express Envelope. UPS Express Envelopes are not recommended for shipments of electronic media containing sensitive personal information.

- To determine the rate for international multiple-package shipments, refer to page 62 for export and page 74 for import.
- For UPS Worldwide Express Freight® Midday and UPS Worldwide Express Freight shipments, additional charges may apply to larger pallets. Refer to page 101 for more information. Shipments exceeding maximum size or weight restrictions require prior authorization.

- For Air Freight destinations within the U.S., and from the U.S. to Canada and Puerto Rico, refer to the rate charts on page 50 to determine what UPS service to reference, then refer to the zone charts at [ups.com/dailyratezones](https://www.ups.com/dailyratezones) for the actual zones.
- Determine the zone for your shipment from the appropriate charts.
- Service to and from points in zone 26 may require one or more additional days.

Domestic UPS® Simple Rate

Preparing a UPS Simple Rate Shipment

Notes:

- Size limits indicated by a box manufacturer may not reflect exterior dimensions of a package and should not be used as a substitute for actual length, width and height measurements in determining cubic inches.
- Packaging must meet all standard UPS packaging guidelines. Refer to page 6 for applicable information on measuring the length, width and height of irregularly shaped packages and items shipped in bags.
- UPS Simple Rate is limited to single-piece, prepaid, small package shipments. UPS Returns® Service options for UPS Simple Rate are limited to UPS Print Return Label Service only.
- UPS Simple Rate is not available for use with UPS Hundredweight Service®, Hazardous Materials shipments, third-party payer or freight collect shipments.
- UPS Express® packaging can be used with UPS Simple Rate for UPS Next Day Air Saver and UPS 2nd Day Air shipments.

UPS Simple Rate offers flat rate pricing between the U.S. 50 states. The applicable rate is determined by package size and service option. Certain standard surcharges do not apply.

Maximum Weight and Size

The maximum actual weight per UPS Simple Rate package is 50 pounds. The maximum size per UPS Simple Rate package is 1,728 cubic inches.

Service Options

Choose from three service options: UPS Next Day Air Saver®, UPS 2nd Day Air® and UPS® Ground. UPS 3 Day Select® is not available for UPS Simple Rate shipments originating in or destined to Alaska and Hawaii.

Determining the UPS Simple Rate Package Size

Follow the steps below to determine the package's UPS Simple Rate size.

1. Package the item in a box or poly mailer.

UPS Simple Rate is designed to be used with the shipper's own box or poly mailer.

2. Measure the package dimensions in inches.

For each dimension, measure at the longest point, rounding each measurement to the nearest whole number (for example, 1.00 to 1.49 will be considered 1, and 1.50 to 1.99 will be considered 2). The minimum measurement for each dimension is 1 inch.

3. Calculate the package size in cubic inches.

Multiply the package length (longest side of the package) by the width by the height. The result is the size in cubic inches.

4. Determine the package's UPS Simple Rate size.

Determine the UPS Simple Rate size, according to the package's size in cubic inches, using the chart below.

Shipping a UPS Simple Rate Package

Prepare and process UPS Simple Rate shipments at ups.com/simplerate or through another UPS automated shipping system, where available. Shippers do not need to open an account or enter into a contract to use UPS Simple Rate.

Alaska and Hawaii – Export Shipment Pricing

UPS Worldwide Express Plus®, UPS Worldwide Express®, UPS Worldwide Express Freight® Midday, UPS Worldwide Express Freight®, UPS Worldwide Saver® and UPS Worldwide Expedited®

Shipment pricing is advantageous because rates are based on the total weight of a shipment, not the sum of the rates for each package in a shipment.

What Qualifies

1. The shipment consists of multiple packages, using the same service, shipped on the same day to a single consignee.
2. For shipments processed with WorldShip® or UPS CampusShip® shipping systems, [ups.com](https://www.ups.com) shipping, the UPS Developer Kit or a UPS Ready® solution that supports full international service, or a UPS Worldwide Services Waybill. **Note:** For shipments processed with UPS Developer Kit – Shipping API, in order to obtain the best rate, customers are responsible for aggregating shipments for shipment pricing prior to requesting labels (UPS Developer Kit – Shipping API does not run End of Day).

What Does Not Qualify

Shipment pricing does not apply to UPS Express® Envelopes, UPS Express® Paks, the UPS® 10 KG Box, the UPS® 25 KG Box or packages recorded in a UPS Shipping Record book; they are each considered separate shipments.

Rates

Rates are based on the total billable weight of all packages in the shipment. Compare each package's actual weight to its dimensional weight. The greater of the two is the billable weight and should be used to calculate the rate. For multiple-package shipments, total the billable weight of all packages in the shipment. Refer to pages 5-6 for instructions on calculating dimensional and billable weight.

If the payer of the shipping charges is located in the origin country, the shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in the destination country, the shipment will be charged the import rate (Destination Country Import Rates). If the destination country does not have import rates, the shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in a third country (neither origin nor destination country), the shipment will be charged the Origin Country Export Rates, except as otherwise agreed to by UPS and the contracting party.

For shipments weighing 150 pounds or less, locate the rate for the total weight of the shipment on the appropriate rate chart.

For shipments weighing more than 150 pounds, multiply the total weight (rounded to the next whole pound)

by the appropriate price per pound. The amount billed will be the result of this calculation or the minimum rate shown, whichever is greater.

Customs Brokerage

For UPS Worldwide Express Plus, UPS Worldwide Express, UPS Worldwide Express Freight Midday, UPS Worldwide Express Freight, UPS Worldwide Saver and UPS Worldwide Expedited, rates include routine, in-house customs clearance by UPS Supply Chain Solutions®. Additional charges will apply if customs clearance is performed by customs brokerage offices other than those designated by UPS for clearing the services listed above.

Customs clearance for the services listed is provided by the UPS Supply Chain Solutions customs brokerage offices designated by UPS for handling package customs clearance. Other UPS Supply Chain Solutions customs brokerage offices charge fees for clearance of packages and freight.

Alaska and Hawaii – Import Shipment Pricing

UPS Worldwide Express Plus®, UPS Worldwide Express NA1®, UPS Worldwide Express®, UPS Worldwide Express Freight® Midday, UPS Worldwide Express Freight®, UPS Worldwide Saver® and UPS Worldwide Expedited®

Shipment pricing is advantageous because rates are based on the total weight of a shipment, not the sum of the rates for each package in a shipment.

What Qualifies

1. The shipment consists of multiple packages, using the same service, shipped on the same day to a single consignee.
2. For shipments processed with WorldShip® or UPS CampusShip® shipping systems, [ups.com](https://www.ups.com) shipping, the UPS Developer Kit or a UPS Ready® solution that supports full international service or a UPS Worldwide Services Waybill. **Note:** For shipments processed with UPS Developer Kit – Shipping API, in order to obtain the best rate, customers are responsible for aggregating shipments for shipment pricing prior to requesting labels (UPS Developer Kit – Shipping API does not run End of Day).

What Does Not Qualify

Shipment pricing does not apply to UPS Express® Envelopes, the UPS® 10 KG Box or the UPS® 25 KG Box; they are each considered separate shipments.

Rates

Rates are based on the total billable weight of all packages in the shipment. Compare each package's actual weight to its dimensional weight. The greater of the two is the billable weight and should be used to calculate the rate. For multiple-package shipments, total the billable weight of all packages in the shipment. Refer to pages 7-9 for instructions on calculating dimensional weight.

If the payer of the shipping charges is located in the origin country, the

shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in the destination country, the shipment will be charged the import rate (Destination Country Import Rates). If the destination country does not have import rates, the shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in a third country (neither origin nor destination country), the shipment will be charged the Origin Country Export Rates, except as otherwise agreed to by UPS and the contracting party.

Unless otherwise specified at the time of shipping, shipping charges are billed to the shipper. In the event of non-payment by consignee or third party, the charges are billed to the shipper.

For shipments weighing 150 pounds or less, locate the rate for the total weight of the shipment on the appropriate rate chart.

To determine the rate for a shipment weighing more than 150 pounds, multiply the total weight (rounded to the next whole pound) by the appropriate price per pound as shown under the shipment weight designations above 150 pounds. The amount billed will be the result of this calculation or the minimum rate shown, whichever is greater.

All rates for UPS international services include routine, in-house customs brokerage. For more information on customs brokerage for import shipments, refer to pages 104-108.

Alaska and Hawaii Customs Brokerage

PACKAGE

The following applies per shipment for imports into the U.S.:

- All UPS Worldwide Express Plus[®], UPS Worldwide Express NA1[®], UPS Worldwide Express[®], UPS Worldwide Express Freight[®] Midday, UPS Worldwide Express Freight[®], UPS Worldwide Saver[®] and UPS Worldwide Expedited[®] rates include routine customs clearance. Routine customs clearance is built into your rates when you use UPS to perform the customs clearance for any of these services.
- Additional services such as parts database management, customer-specific classification directives, special operating plans, assigned rating team, custom reporting and

other value-added services are part of our Customized Brokerage Services and subject to a customs entry fee and/or other charges. Please see Customized Brokerage Services in the Special Services section below for more information.

- The importer is responsible for all brokerage fees, including duties and taxes. See charts on the following pages for more information.
- The UPS Service Guarantee does not apply when customs clearance is performed by brokerage offices other than those designated by UPS, or if a service delay is the result of certain events beyond our control, such as a government agency hold.

- Customs clearance for services specified here is provided by the UPS Supply Chain Solutions[®] customs brokerage offices designated by UPS for handling package customs clearance. Other UPS Supply Chain Solutions customs brokerage offices charge fees for clearance of packages and freight. Customs clearance and brokerage services are subject to the Customs Brokerage and Freight Forwarding Terms and Conditions/U.S. located at [ups.com/freighttermsofservice](https://www.ups.com/freighttermsofservice).

For more information on any of our Customs Brokerage Services, call 1-800-782-7892.

UPS Broker of Choice[®]

With UPS Broker of Choice service, importers select their own alternate customs broker for customs clearance of their UPS international shipments. This service is available for all UPS international shipments.

This contractual, fee-based service ensures that the established relationship with a customs broker can remain in place while the importer continues to utilize UPS for their international shipping needs. Using UPS Broker of Choice enables importers that have concerns about specific commodities or product lines to retain a particular broker familiar with this portion of the

business, while continuing to utilize UPS brokerage expertise for others.

Through the use of UPS technology, shipment information, as well as shipment documentation (e.g., commercial invoice), will be proactively available at the time of export for the broker to retrieve, thus enhancing the broker's ability to clear the shipment in a timely manner.

Importers have two options:

1. UPS Broker of Choice OnSite keeps shipments in UPS's possession while the importer's customs broker completes customs clearance procedures prior

to UPS completing delivery of the shipment.

2. UPS Broker of Choice OffSite moves shipments in-bond directly to a customs-controlled (bonded) warehouse (at the importer's direction), where the importer's customs broker completes the customs clearance procedures. The UPS transport is completed upon delivery of the shipment to the warehouse. Refer to page [107](#) for fees.

Note: For information on UPS Customs Brokerage Services for your freight needs, including the Customs Brokerage and Freight Forwarding Terms and Conditions, please visit [ups.com/supplychainsolutions](https://www.ups.com/supplychainsolutions).

UPS® FTZ Facilitator

With UPS FTZ Facilitator service, importers and exporters have the ability to use UPS to transport international shipments in-bond to and from a global Free/Foreign Trade Zone (FTZ). This service is available for all UPS international shipments.

This contractual, fee-based service allows the shipment of goods to and from an FTZ, while retaining the benefits of UPS's transportation network. Using UPS as a single source enables importers and exporters to increase

visibility and tracking, and reduce the chance for errors and costs associated with utilizing multiple transportation providers.

Through the use of UPS technology, shipment information, as well as shipment documentation (e.g., commercial invoice), will be proactively available at the time of export for our customer, customer's broker or FTZ operator to retrieve, thus enhancing their ability to process the FTZ entry in a timely manner.

Importers will choose FTZ Facilitator Import to direct shipments to be delivered in-bond to a designated FTZ rather than being cleared through customs.

Exporters will choose FTZ Facilitator Export to ship goods in-bond from an FTZ to an international destination. Refer to page [109](#) for fees.
